

Maximizing Value in Health Care: Re-Examining Our Emerging Trends Research

The move to a value-oriented marketplace was one of **AMCP Foundation's Top 10 Emerging Health Care Trends**, as published in our landmark report in 2014. Significant progress has been made on multiple fronts in the past three years, as various stakeholders continue to press for new approaches to optimize value in health care.

MAXIMIZING VALUE IN HEALTH CARE is the first in a series of articles bridging the predictions from the Emerging Trends body of knowledge to current health care realities. In this update, we highlight four important areas of progress.

- Value in Oncology Care
- Value in Reimbursement
- Improving the Patient Experience
- Emergence of Value-Based Pharmaceutical Contracting
