

AMCP Top Legislative and Regulatory Priorities 2017

- Advocate for the role of managed care pharmacy strategies and practices in addressing rising drug costs.
- Advocate for the use of managed care pharmacy strategies and practices to promote affordability to safe and cost effective medications for patients.
- Support policies to ensure appropriate patient access to biosimilars and promote active post marketing surveillance.

Developed at a joint meeting of AMCP's Public Policy Committee and Legislative & Regulatory Action Committee on October 3, 2016, and approved by AMCP Board of Directors January 2017.
