Academy of Managed Care Pharmacy
Call for Abstracts
AMCP Managed Care & Specialty Pharmacy Annual Meeting 2017

The Academy of Managed Care Pharmacy (AMCP) invites submissions for abstracts to be presented at the AMCP Managed Care & Specialty Pharmacy Annual Meeting 2017, which will be held March 27-30, at the Colorado Convention Center in Denver, CO.

Poster presentations provide a forum during which authors can share their insights and outcomes, and interested attendees can query authors and review the findings. The poster presentation begins on Tuesday, March 28 from 5:45pm-7:30pm*; posters will also be displayed on Wednesday, March 29. Please note that at least one author per poster should be available during the poster presentation to discuss findings on Tuesday, March 28.

The most highly rated abstracts will be selected for a 15-minute podium presentation as part of an education session in the “Practical Applications of Managed Care Research” education track at the AMCP Managed Care & Specialty Pharmacy Annual Meeting 2017 in lieu of the poster presentation. These may be scheduled any time between March 28-30. Based on the content, the podium presentations may be accredited for continuing pharmacy education credit, and therefore, must comply with both AMCP and Accreditation Council for Pharmacy Education (ACPE) requirements. If your abstract is selected for a podium presentation, the AMCP Education Department would work directly with the presenter.

Most accepted abstracts will be presented during poster sessions on Tuesday, March 28 from 5:45pm-7:30pm. Posters will also be displayed on Wednesday, March 29 from 11:45am-2:45pm*; however a presenter is not required to be with the poster during this time.

*Times subject to change

Important Dates

- Monday, December 20, 2016 11:59 PM Eastern — All poster abstracts must be submitted no later than 11:59 PM Eastern Time (roughly 90 days prior to the meeting)
- Late-January, 2017 — Accept/reject email notification will be sent (roughly 60 days prior to the meeting)

Every accepted abstract must have one unique author registered and attending the meeting. “Unique” means the same author will not be able to represent multiple abstracts. The first author need not be the registered author.

How to Submit an Abstract
Abstracts must be submitted online. Please CLICK HERE to start your submission. The submission site will guide the submitter through the process. Once started, work is saved to be completed at a future time. Work can be revised at any time prior to the submission deadline, even if it is submitted in the final step.
Abstracts are acknowledged by email immediately after being submitted. If you do not receive an acknowledgement, please contact Michelle Perkins at mperkins@amcp.org.

For general tips on writing a research abstract, please refer to this and related published on the topic. [http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3114208/](http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3114208/)

**SUBMISSION TYPE**

One of 4 abstract types (defined below) is selected in this step. Once selected, the type for that abstract cannot be changed, but a new abstract may be initiated by the same author.

<table>
<thead>
<tr>
<th>CHOICE</th>
<th>TYPE</th>
<th>DEFINITION</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Research Reports</td>
<td>Describe completed original research on managed care pharmacy services or health care interventions. Examples include (but are not limited to) observational studies using administrative claims, reports of the impact of unique benefit design strategies, and analyses of the effects of innovative administrative or clinical programs.</td>
</tr>
<tr>
<td></td>
<td>Economic Models</td>
<td>Discuss models that support various clinical decisions before prospective studies using actual health plan data can be conducted. For example, an economic model could be used to predict the budget impact of a new pharmaceutical product on a health care system.</td>
</tr>
<tr>
<td></td>
<td>Solving Problems in Managed Care</td>
<td>Describe a problem or issue that exists in managed care, the goal for the intervention or practice, the intervention or Best Practice implemented to address a specific issue (e.g. introduce a needed change, develop and implement a new system or program, plan and organize an administrative function, or solve other types of problems in managed care settings). Describe what was observed after or when the intervention or Best Practice was implemented. Provide a general overview of subjective and objective findings and recommendations for future work/research. These descriptions are not as rigorous as a research report describing the outcomes of an intervention. These are not conducted at the level to conduct hypothesis testing, thus they do not have firm conclusions.</td>
</tr>
<tr>
<td>CHOICE</td>
<td>TYPE</td>
<td>DEFINITION</td>
</tr>
<tr>
<td>--------</td>
<td>------</td>
<td>------------</td>
</tr>
<tr>
<td>Encore Research Reports</td>
<td>A presentation that has been presented and published with another organization. Authors will display the poster at The AMCP Nexus 2016 using the format required for the meeting. The title and authorship of the abstract will be included in the meeting program. These will not be eligible for podium presentation. The abstract will not be published in JMCP due to the copyright ownership of the original presenting organization.</td>
<td></td>
</tr>
</tbody>
</table>

**TITLE/BODY**

**Disease or Condition Grouping**

Based on ICD-10 code, insert the ICD-10 Block that best describes the disease, diseases, or conditions described in this abstract. This is only used to arrange abstracts in the exhibit hall and in the abstract book. ([http://www.icd10data.com/ICD10CM/](http://www.icd10data.com/ICD10CM/)) Codes is a useful site to look up icd-10 codes.) Enter the letter and first 2 numbers in the block below. Use 00 in the block if it includes many diseases in the block, e.g., Asthma is J45; U00 is to be used for unclassified topics.

**Abstract Structure**

Headings for the abstract sections vary by abstract type and cannot be modified.

The maximum number of characters in the abstract is 2,600 including spaces, and the total number used is tabulated and reported by the submission site.

**Sponsorship**

List all sponsors, in relative order of their sponsorship level. If the work was sponsored fully or partly by your employer, list its name. In-kind sponsors should also be listed.

**AUTHOR CATEGORY**

Student authors who are the first author have the option of submitting complete or incomplete studies through a non-reviewed track. All other abstracts must be submitted though the review track and have complete results at the time of submission.

**Professional Reviewed:** For these abstracts, research results must be included in the submission.
**Student/Resident/Fellow Non-Reviewed:** This is only available for Students/Residents/Fellows as defined above. These are usually projects where data is not available at time of submission, but may be available at the time of the meeting. The first author must be a student, resident or fellow.

*AMCP Foundation Best Student Poster and Best Resident/Fellow competition are held during Annual Meetings only.*

**AUTHORS**

Author information is entered and Author order is selected. If the submitter is not an author, the submitter's name is removed from the author list.

By submitting an abstract, authors agree to the following requirements:

- All authors have met the [authorship criteria](#) defined by the International Committee for Medical Journal Editors.
- Abstracts must present content not previously published as an abstract or article (except for Encore Research Reports).
- At least one author of each accepted abstract (preferably the primary author) must register for and attend the meeting.
- Changes to the abstracts will not be considered after the submission deadline.

**DISCLOSURES**

*JMCP Publication Rights*

Accepted reviewed abstracts will be published in a *JMCP* supplement. Encore abstracts will not be published in *JMCP* due to the copyright ownership of the original presenting organization. As such, copyright clearance must be obtained by *JMCP* below. One of the following conditions applies to your reviewed abstract submission. Please select which applies:

As author of this poster abstract, I represent that I am the owner of any copyright(s) covering the abstract, and in consideration of the publication thereof, I hereby grant and assign to the Academy of Managed Care Pharmacy (AMCP) an exclusive copyright to publish, reproduce, and/or distribute all or any portion of the abstract.

This work was conducted as part of my official duties as an employee of the United States or other government and is therefore in the public domain. Copyright does not apply.

This work was conducted in the course of my work as a “work-made-for-hire” and the work is therefore owned by the organization that hired me to produce this abstract. In consideration of the publication thereof, I attest that the owner of the “work-made-for-hire” grants and assigns to the Academy of Managed Care Pharmacy (AMCP) an exclusive copyright to publish, reproduce, and/or distribute all or any portion of the abstract.
This work is either a non-reviewed student abstract, or an Encore Research abstract, and copyright clearance is not required.

REVIEW AND SUBMISSION

Submission Instructions

Before submitting, please self-review your submission based on the following selection criteria. Even after pressing submit, an abstract submission can be revised up to the close of abstract submissions.

Selection Criteria

Abstracts will be evaluated on the basis of merit according to the following criteria, which are also used for JMCP review. Those with the highest scores (except for Encore and Student non-reviewed categories) will be designated in the abstract book and with a Gold, Silver, or Bronze rosette in the exhibit hall.

- Relevance to managed care.
- Originality.
- Quality of the work.
- Bias.
- Clarity.

View Proof

The proof is the final version of your submission. It can be viewed via the submission site. Please review carefully as no changes/corrections are permitted once the site closes.
