CMS Issues Quality Rating System (QRS) Measure Technical Specifications for 2024

- On March 30, 2023, the Centers for Medicare & Medicaid Services (CMS) published the 2024 Quality Rating System Measure Technical Specifications (Technical Specifications).
- Qualified Health Plan (QHP) issuers that offered coverage through a Health Insurance Exchange (Exchange) in the prior year are required to submit third-party validated QRS clinical measure data and QHP Enrollee Survey response data to CMS.
- The Technical Specifications include the measure specifications and guidelines for data collection for the 2024 QRS measure set. QHP issuers will need to reference this document to collect and submit QRS measure data to CMS for 2024.
- CMS will calculate the quality performance ratings for QHPs offered through all Exchanges and will produce quality ratings on a 5-star rating scale.

See the Technical Specifications for additional details.
