• CERTIFICATE PROGRAM •

In-depth certificate programs are designed to give participants a thorough background in specific subjects. Fundamentals of Managed Care Pharmacy is AMCP Learn's most popular program, offering 15 hours of high-level content from the field's founding thought leaders. Available in a professional version and a non-accredited student version. This program is designed for pharmacists, managed care/managed markets team members, and other individuals who are interested in expanding their understanding of managed prescription drug benefits.
