

P&T Award Ceremony & Networking Event
University of Minnesota College of Pharmacy

Project Description

The Academy of Managed Care Pharmacy (AMCP) chapter at the University of Minnesota College of Pharmacy hosted the Pharmacy & Therapeutics (P&T) Local Competition on Saturday, January 26th, 2019 with a record high 9 competing teams. For the first year ever, our student chapter also hosted an award ceremony and networking event following the local competition.

Our mission was to bring together students and professionals to thank all those who participated and to celebrate the winning teams.

The local competition at the University of Minnesota took place all morning and afternoon on Saturday, January 26th, and the P&T Award Ceremony & Networking Event took place at the McNamara Alumni Center near campus from 5:00pm – 7:15pm.

Purpose of the Project

The goal of hosting the P&T Award Ceremony & Networking Event at the University of Minnesota was to celebrate the accomplishments of the teams and celebrate another great year of the P&T Competition. We also took the time to thank the many individuals who helped make this year’s competition another success, including the judges and mentors for their time and contribution to the local competition and Radius Health for their event sponsorship.

Project Budget: Expenses & Revenues

Expenses	Amount
Venue (tech equipment included)	\$780
